

# Nayak Freight (Hong Kong) Pte. Ltd.

Nayak Freight (HK) has been in the international market for almost a decade, having been established in 2006.

At a time when only leading and specialized players could foray into the densely competitive Chinese market, Nayak Freight (HK) paved way for our group in being an instrumental player in establishing our credentials in the Chinese market.

## Globe 1 Express (Hong Kong)

When the needs of the textile industry were growing with numbers forever spinning on the expansive side of imports and exports, there was a need to cater to the import needs of the said industry. We created Globe 1 Express, an international wing of Nayak Aviation conceptualized to specifically cater to the import requirements of textile businesses.

This is an express service, growing on the horizons of global reach and domestic connect. We use this platform to serve our consumer base in the garment export territory. We offer an array of services, which include pickup from Mainland China and Hong Kong and deliveries in to India, Bangladesh and Sri Lanka.
